SUPAGRO R

An ad-lib, cost effective, safe, energy and mineral paddock supplement scientifically designed to attain healthy, fertile bulls that are
BIG, LOOSE AND FULL OF JUICE!

SupaGro R is a balanced vegetable protein meal based supplement and unlike cereal grain based supplements, will not cause digestive disorders such as bloat and acidosis. The high levels of good quality protein and energy available in the vegetable protein meals in **SupaGro R** not only promotes growth but enhances muscle definition and skeletal development. Furthermore, the natural oils enhance overall condition through high coat shine. Bull temperament will also be calmer and more settled as opposed to bulls "fizzed up" on grain based supplements. Healthy, happy bulls equal fertile, active bulls.

SupaGro R is balanced with urea to satisfy the protein requirements of the rumen microbes, minerals and vitamins to satisfy animal requirements, and Rumensin® to maximize growth and weight gains. This specific balance makes **SupaGro R** self-regulating and highly effective under both dry and green feed situations whilst maximizing the utilization of available pasture. **SupaGro R** has a targeted daily intake of up to 0.5% of Live Body Weight.

SupaGro R will ensure consistent *growth and development* especially of young bulls *post weaning* and *pre-sale* allowing for a minimum weight gain of 0.5kg and possibly over 1kg live weight in addition to their unassisted weight gain. Hence, allowing bulls to express their full genetic growth potential in a cost effective manner as opposed to feeding costly grain based supplements. Consequently, introducing young bulls to **SupaGro R** *post weaning* reduces the need to feed high grain based supplements for extended periods in preparation for sale. Eliminating the reliance on high grain based supplements minimizes the risk of producing over-conditioned bulls with poor fertility.

SupaGro R is the ideal supplement for the transitional "Letting Down" period as it allows the rumen to gradually make the necessary adjustments from a pre-sale high energy concentrate supplement to a post-sale low- to moderate roughage diet. Bringing the bull down from over-conditioned to working-condition and promote sperm turnover. Additionally, use **SupaGro R** to 'Spike Feed' all bulls prior to joining which builds body condition, increases libido and promotes healthy sperm production.

SupaGro R is the convenient, cost effective answer to keeping bulls...

BIG, LOOSE AND FULL OF JUICE

Nutritional Analysis (As Fed Basis):

Min. Crude Protein	22.2%
Min. Equivalent Crude Protein	10.9%
Min. Total Protein	33.1%
Min. Metabolisable Energy	8.77 MJ/kg
Urea Equivalent	3.7%
Calcium	2.1%
Phosphorus	1.0%
Sulphur	0.7%
Salt	5.0%
Trace Mineral-Vitamin Premix	0.1%
Monensin Sodium	100mg/kg
