EARLY WEANER

An energy and protein supplement designed for consistent growth of young cattle post-weaning.

Early Weaner is a grain-based ration specifically formulated for stock 70-160 kg LW, to supply additional dietary energy, protein, vitamins and minerals. Monensin Sodium has been added for the "prevention and control of coccidiosis due to the protozoan *Eimeria bovis* and *Eimeria zuernii*". This product also contains a small amount of milk powder for calves transitioning from a milk diet. Flavophospholipol is added "For improvement of productivity by stimulating the growth and increasing feed conversion efficiency in calves".
