INDUCTION RATION

A grain-assist ration designed for feeding stock unaccustomed to a grain diet.

Induction Ration has been specifically formulated as an introduction ration to adapt grower stock (260-380 kg LW) to a highly digestible source of energy, before transitioning to the next step in grain from the **Trade Ration**, before finishing cattle on the **Heavy Finisher Ration**.

This product contains Monensin Sodium "for improved feed efficiency", and Flavophospholipol for "growth promotion and improved feed conversion efficiency".
