NQ BREEDER

Dry Season Protein-Mineral Supplement for Breeders in North Queensland

NQ Breeder is specifically formulated to correct dietary protein and mineral deficiencies of breeder cattle grazing on a bulk of dry feed throughout North Queensland. This supplement contains a combination of urea and protein meals to help maintain body condition and breeder performance.

NQ Breeder will enhance rumen function, stimulate higher intakes of available dry matter and maintain animal production through the dry season. Cattle should be fed salt 7-10 days or started on **NQ Starter** for 2-3 weeks before feeding out **NQ Breeder** supplement. This supplement is suited more for adult cattle than young cattle due to the high urea content.

Nutritional Analysis (As Fed Basis):

Min. Crude Protein	6.69%
Min. Equivalent Crude Protein	89.55%
Min. Total Protein	96.24%
Urea Equivalent	30.88%
Calcium	3.82%
